

I believe that if i want better service than listening to ads on public radio %95, i should be entitled to it. The public radio stations have held a monopoly that should be broken by new services, such as XM Radio. XM Satelite radio's quality is superb. I'd rather listen to the cleaner programming of XM Radio than listen to public vulgar radioists such as Howard Stern. I support getting rid of the trash on air and letting the public choose who they want, which will quite simply be XM radio.

I urge you to allow XM radio to continue giving me great service and great radio.
